APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the  
following limitations and conditions:

This permit is issued subject to existing rights on the source. It is  
understood that the amount of water herein granted is only a temporary allowance for  
pollution control as mandated by orders issued by the Nevada Division of  
Environmental Protection and subsequent correspondence with said agency. A  
totalizing meter must be installed and maintained in the discharge pipeline near the  
point of diversion. It is also understood that this right must allow for a  
reasonable lowering of the static water level of permittee's well due to other ground  
water development in the area. The well shall be equipped with a 2-inch opening for  
measuring depth to water. The State retains the right to regulate the use of water  
granted herein at any and all times.

\* The right will cease to exist upon termination of clean up activity as  
determined by the Nevada Division of Environmental Protection.

This permit does not extend the permittee the right of ingress and egress on  
public, private or corporate lands.

(CONTINUED ON PAGE 2)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to  
exceed 0.5 cubic feet per second, but not to exceed 161  
acre-feet annually.

Work must be prosecuted with reasonable diligence and be completed on or before

Proof of completion of work shall be filed before

Application of water to beneficial use shall be filed on or before

Proof of the application of water to beneficial use shall be filed on or before

Map in support of proof of beneficial use shall be filed on or before
